

The world's first collapsible net with one handed deployment and netting capability. Using this uniquely designed leverage handle. This high quality, exquisitely designed and engineered landing net is a must for fisherman who want the best.

Leverage Landing Net™

Finally, the ultimate fishing net you have been looking for... ...Leverage Landing Net™

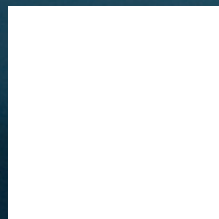

About our Leverage Landing Net LLC.™

- Our groundbreaking design and engineering results in the most convenient, versatile features of any net on the market.
- The unique handle design gives fishermen the ability to land fish with one arm while creating extra strength with leverage.
- Easily deployed by a push of the thumb creating fast one handed operation in netting the fish.
- Traditional landing nets are long, wide and clumsy - tough to stow in any boat or vehicle , but the Leverage Landing Net can be collapsed and stored in its own compact and convenient carrying case*.
- Our rubber-dipped nylon nets are knotless, meaning fewer tangles and hook snags. This is gentler on the fish's protective coating thus ideal for catch and release.
- Leverage Landing Net comes in two sizes. The BC-1900 has a 19" hoop and is best for Bass and Crappie. The WB-2250 has a 22 ½ " hoop and is perfect for Walleye and Bass.

* Bag sold separately

Bass Tournament Pro

Todd Koehler

"I was constantly buying new nets with hopes of finding the perfect one. I finally discovered what I was searching for in the Leverage Landing Net. Its small storage capability is a must. With a simple push of my thumb to deploy the net and a handle design that gives me the control and power I can land my fish easily using one hand. Once open on the deck it presents itself for perfect hand/arm placement. This is the net I've been looking for."

Warranty

- Leverage Landing Net LLC proudly stands behind our product. Our 3 year repair or replacement warranty makes the Leverage Landing Net™ one of the safest buys and best values in the fishing industry.
- Leverage Landing Net LLC will repair or replace any portion of the Leverage Landing Net™ that has been found to be defective under normal usage. This does not include the netting, which has a 30-day replacement guarantee.
- For extended band life detach band at larger hole when stored for long periods of time.
- For warranty activation please visit www.LeverageLandingNet.com

Instructions:

While holding the net with one arm, push on thumb button (Fig. 1, 2). Twist arm slightly downward to allow the net frame to fold out (Fig. 3, 4).

To close the net for storage simply lift up on the lock mechanism in the front of the main hinge. When released simply lift the net back over onto the handle rail. Squeeze and push down on the net rails over the handle. While in folded position pull back toward your hand grip to lock. The net is now locked in stored position.
